

Assessment

Assess what aspects of the law your organization is already complying with and what you have left to do.

Data Mapping

Map where and how personal information of California residents is collected, stored, transmitted, and sold.

Agreements

Ensure contracts with organizations and individuals with whom you share personal information contain CCPA required terms.

Consumer Request

Collect, track, and respond to requests from California residents to access or delete their personal information.

Opt Out Requests

Collect and track the names of consumers who do not want your organization to sell their personal information.

Policies and Procedures

Have policies and procedures in place for your organizations employees about CCPA requirements.

Privacy Disclosures

Disclose all CCPA required terms online. The privacy notice must be accessible from your organization's homepage.

Training

Inform your organization's employees about CCPA requirements or provide privacy training.
