

**The law is complicated. SixFifty makes it easy.**

## Employment Handbooks

### **What is your process like for creating or updating employee handbook policies?**

- I ask because we have a partner, SixFifty, that automates the creation of legal policies and documents.
- They have a tool that helps companies create employee handbook policies that are catered to the law in all 50 states.
- Best of all, their policies are updated monthly, making it easy to have policies that are current with the law, and they notify you of the changes so you don't have to worry about keeping up with the law yourself.
- If you're interested, I can make an introduction for you. Is that something you'd want to look into?

## Employee Agreements

### **Do you have updated offer letters and employee contracts?**

- I ask because we have a partner, SixFifty, that automates the creation of legal policies and documents.
- They have a tool that helps companies create offer letters and employment agreements that are catered to the law in all 50 states.
- Best of all, their policies are updated monthly, making it easy to have policies that are current with the law. and they notify you of the changes so you don't have to worry about keeping up with the law yourself.
- If you're interested, I can make an introduction for you. Is that something you'd want to look into?
