

The law is complicated. SixFifty makes it easy.

The Basics

Why should a company use SixFifty?

Supported by the expertise of Wilson Sonsini.

- Because SixFifty's legal products are backed by one of the top law firms in the nation, Wilson Sonsini, you can trust that the documents will meet any businesses needs.

Always up-to-date.

- Since our system is backed by lawyers, we are constantly monitoring the legal landscape and updating our policies anytime there is a change in the law.

Affordable pricing

- Our automated software solution makes these top tier legal documents affordable for companies of all sizes.

Return to Work / COVID

Do you have plans to bring employees back to the workplace?

- I ask because we have a partner, SixFifty, that automates the creation of legal policies and documents.
- They have a tool that helps companies create the COVID-19 policies they need, including a COVID-19 Prevention Program, Vaccine Policy, screening, and Return to Work plan.
- Best of all, their policies are updated frequently, making it easy to have policies that are in line with the current guidance and recommendations so you don't have to spend time doing that research yourself.
- If interested, I can make an introduction for you. Is that something you'd want to look into?
