

RETURN TO WORK RESPONSIBLY

We worked with the top employment experts in the nation to help you consider the important issues regarding COVID-19, draft actionable policies, and put your return-to-work plan into place.

Return-to-Work Assessment

We've thought through some of the key issues to consider when returning your workforce to the office. We'll run you through some questions regarding your business and give you guidance to help you cover the bases.

Customizable Return-to-Work Policies

Don't pay tens of thousands of dollars to have an attorney draft your return-to-work policies from scratch. We worked with the best employment attorneys in the world to automate what you need. SixFifty's return-to-work documentation includes:

- Return to Work – Assessment
- Return to Work - Policy
- COVID - Telecommuting Policy
- COVID - Reimbursement Policy
- Return to Work - Employee Questionnaire

- Employee Return-to-Work Survey
- COVID - Travel Policy
- COVID - Sick and Family Leave Policy
- Stimulus - PPP Loan
- Stimulus - Tax Relief Eligibility

Tracking the Daily Health of Your Workforce

In order to return to work safely, you need to ensure that contagious individuals stay home. We've developed a daily online questionnaire that you can deploy to your workforce daily to help ensure that sick employees don't come to the office. The employee reports are logged, categorized, and organized to enable individuals or small teams to manage and track them at scale.
