

GDPR

In collaboration with the Privacy and Data Security practice at Wilson Sonsini to automate the major obligations under the GDPR.

With SixFifty, your organization can:

GDPR Training

Train your employees on the GDPR and how to comply. Keep logs of who has been trained for audit purposes.

GDPR Request Management

Collect, manage, and respond to consumer requests in one place.

Cookie Management

Collect and track consent for website cookies from those who visit your site.

GDPR Documentation

Generate website disclosures, contract language, request management policies, etc.

Data Mapping

Chart where all your data comes from, where it resides, and how it's used. Produce an Article 30 Record of Processing.

Impact Assessment

Document your analysis regarding whether the benefits of using consumers' data outweigh the costs.
