- DIVERSITY & INCLUSION TRAINING - Five Course Suite

- Knowledge transfer does not correlate to behavior
 - Just because you got 100% on the test, doesn't mean you are going to behave in a certain way.
- Teach behavior don't train on the law
 - Show the consequences of the right and wrong behavior.
- Finger-wagging doesn't work
 - No one...not kids, dogs or people....learn from that. We believe the only way to effect change is to hold a mirror up to one's behavior and have them reflect on their choices.
- People remember stories, not facts
 - We are storytellers at heart and every opportunity we have to tell a story, we take it.
- We don't insult the learner's intelligence
 - We never ask questions that are so obvious, you don't need to take the training to answer.

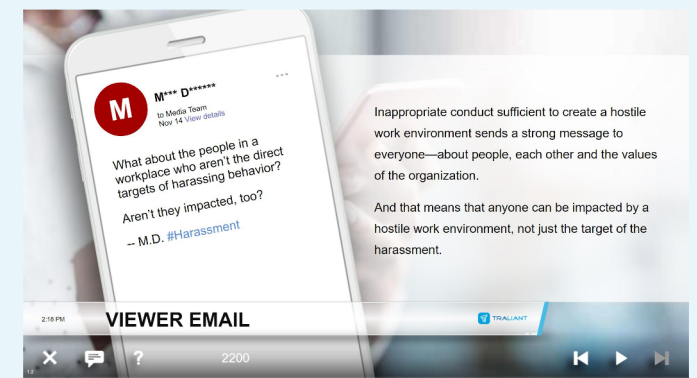

- **Assess the goal**
 - Understand the purpose and expected results of the policy.

- **Reflect how the Company operates**
 - Outdated or overly aspirational policies are ineffective.
- **Communicate the Policy**
 - Explain the “why” and allow employees to ask questions.
- **Prepare to enforce the policy**
