

SixFifty Employment

Employment documents for every stage of the employment lifecycle

We worked with the top employment law firms in the nation to automate the contracts, policies, and documents you need to hire and manage employees in all 50 states. Our easy-to-use platform helps you generate and keep up to date the necessary documents for every stage of the employment lifecycle: **research, hiring, retention, and separation.**

Employment Agreements

SixFifty's easy-to-use platform helps you generate the necessary documents to hire and manage employees in every jurisdiction across the country. Our document generators will help you easily customize legally compliant documents for every step—from onboarding to separation and everything in between.

Start your document and select your state

SixFifty's intuitive tool walks you through the relevant laws in the employee's state so that you can make informed decisions and easily create the documents you need.

Download, edit, and stay up to date

Export your offer letters, employee contracts, non-disclosure agreements, and more in an easy-to-edit format. We continuously monitor changes in employment laws across all 50 states and update our tools as soon as new laws take effect.

50-State Hiring Kit

With SixFifty's 50-State Hiring Kit, you can generate an easy-to-understand blueprint of how to hire employees anywhere in the United States. The 50-State Hiring Kit is included in our Employment Agreements toolset.

Employee Handbook

Keep your organization compliant in all 50 states with our comprehensive Employee Handbook builder. This document generator includes over 70 policy options that account for the law federally and in every state and are customizable according to industry and preference.

Easily create your customized handbook

Our system asks you the same questions a lawyer would ask when building an employee handbook. We'll use your answers to give you tailored information about what policies you need, and generate a customized handbook.

Stay current and compliant

We monitor changes in the law and notify you via email and within our platform. We'll tell you what's changed, and we make it easy to regenerate the affected policy.

Diversity, Equity, and Inclusion

SixFifty's DEI tool will help you assess, evaluate, and implement strategies to create a more diverse and inclusive workforce. It contains a DEI assessment, action plan, vision statement, policies, candidate evaluation form, and exit interview form. These DEI documents are included in our Employee Handbook toolset.

"I would recommend SixFifty to any business. It has made my job as an HR professional much easier and I never have to worry if my contracts or policies are out of date because the SixFifty platform will let me know!"
